A Gregg/McGraw-Hill Publication

Technical Education News

Volume 40 September-October 1980—March-April 1981

AUTHOR INDEX

Albright, Albert A.
Working Together to Improve Instructional Materials, J-F 14
Brooking, Walter J. (Report From Washington)
The New Department of Education, S-O 23
The Need for Mechanical Technicians, J-F 16
The Growing Need for Instrumentation Technicians, M-A 19
Derato, Frank
The Microcomputer and the Automotive Ignition System, J-F 12
Fairweather, Virginia (Conversations With...)
Glenn E. Baker, S-O 5
Rex Miller, J-F 8
Paul E. Tippens, M-A 8
Fey, Carol
Writing an Instruction Manual, S-O 20
Gill, Douglas H.,
Mainstreaming in the Vocational Setting, S-O 16
Goetsch, David L.
Converting Residential Drawing Courses to
Hannum, Robert (Electronics Update)
The EIA Connection—Text-Lab Manuals, J-F 20
Havrella, Raymond A.
Heating, Ventilating, Air Conditioning: A Growing Field, S-O 3
Hooker, Ellen, and H.C. Kazanas (R&D)
The Learning Domains—Relationships and Other Implications, S-O 14
Jolley, Mary Allen
Recruiting Women Into the Technologies—How We Did It, M-A 12
Kazanas, H. C.: See Hooker, Ellen
Kazanas, H. C.: See Kraska, Marie F.
Kazanas, H. C.: See Leach, James
Kraska, Marie F., and H. C. Kazanas (R&D)
Solving Problems Through Rational Decision Making, J-F 19
Lamit, Gary L.
Industrial Model Building and Secondary Education, M-A 14
Leach, James, and H. C. Kazanas (R&D)
Improving Work Productivity Through Vocational Education, M-A 20
Miller, Rex
Innovations in Carpentry—What Effect on Teaching? J-F 3
Poland, Robert
Examination Copies—A Service to You, J-F 22
Rhone, L. C., and Samuel R. Rubinstein
Highlight of the Gregg/McGraw-Hill Authors' Workshop—Two Participants Give Their Views, J-F 11
Rubinstein, Samuel R.: See Rhone, L. C.
Schuler, Charles A.
After Twenty Years, I Took the FCC Radiotelephone Exams, S-O 18

Steckel, Frank R. (Electronics Update)
U.S. Skills Olympics—A Good Resource for Recognition, M-A 16
Tippens, Paul E.
Teaching Technical Physics, M-A 3

SUBJECT INDEX

Automotive Technology
The Microcomputer and the Automotive Ignition System, Frank Derato, J-F 12
Career Opportunities
Heating, Ventilating, Air Conditioning: A Growing Field, Raymond A. Havrella, S-O 3
The Need for Mechanical Technicians (Report From Washington), Walter J. Brooking, J-F 16
The Growing Need for Instrumentation Technicians (Report From Washington), Walter J. Brooking, M-A 19
Communication and Language Skills
Writing an Instruction Manual, Carol Fey, S-O 20
Construction Trades
Heating, Ventilating, Air Conditioning: A Growing Field, Raymond A. Havrella, S-O 3
Conversations With...Glenn E. Baker, by Virginia Fairweather, S-O 5 (an interview with the Gregg/McGraw-Hill manufacturing processes author)
Innovations in Carpentry—What Effect on Teaching? Rex Miller, J-F 3
Conversations With...Rex Miller, by Virginia Fairweather, J-F 8 (an interview with the Gregg/McGraw-Hill author on carpentry fundamentals)
Industrial Model Building and Secondary Education, Gary L. Lamit, M-A 14
Drafting and Design
The Need for Mechanical Technicians (Report From Washington), Walter J. Brooking, J-F 16
Industrial Model Building and Secondary Education, Gary L. Lamit, M-A 14
Electricity and Electronics
After Twenty Years, I Took the FCC Radiotelephone Exams, Charles A. Schuler, S-O 18
The Microcomputer and the Automotive Ignition System, Frank Derato, J-F 12
The EIA Connection—Text-Lab Manuals (Electronics Update), Robert Hannum, J-F 20
U.S. Skills Olympics—A Good Resource for Recognition (Electronics Update), Frank R. Steckel, M-A 16
General
The New Department of Education (Report From Washington), Walter J. Brooking, S-O 23
Highlights of the Gregg/McGraw-Hill Authors' Workshop—Two Participants Give Their Views, L. C. Rhone and Samuel R. Rubinstein, J-F 11
Examination Copies—A Service to You, Robert Poland, J-F 22
Instrumentation Technicians
The Growing Need for Instrumentation Technicians (Report From Washington), Walter J. Brooking, M-A 19
Metrication
Converting Residential Drawing Courses to Metric, David L. Goetsch, S-O 11
Physics
Teaching Technical Physics, Paul E. Tippens, M-A 3
Conversations With...Paul E. Tippens, by Virginia Fairweather, M-A 8 (an interview with the Gregg/McGraw-Hill applied physics author)
Research
The Learning Domains—Relationships and Other Implications (R&D), Ellen Hooker and H. C. Kazanas, S-O 14
Working Together to Improve Instructional Materials, Albert A. Albright, J-F 14
Solving Problems Through Rational Decision Making (R&D), Marie F. Kraska and H. C. Kazanas, J-F 19
Improving Work Productivity Through Vocational Education (R&D), James Leach and H. C. Kazanas, M-A 20
Special Needs
Mainstreaming in the Vocational Setting, Douglas H. Gill, S-O 16
Women and Technical Education
Recruiting Women Into the Technologies—How We Did It, Mary Allen Jolley, M-A 12

DEPARTMENT INDEX

Conversations With...
Glenn E. Baker, by Virginia Fairweather, S-O 5
Rex Miller, by Virginia Fairweather, J-F 8
Paul E. Tippens, by Virginia Fairweather, M-A 8
Electronics Update
The EIA Connection—Text-Lab Manuals, Robert Hannum, J-F 20
U.S. Skills Olympics—A Good Resource for Recognition, Frank R. Steckel, M-A 16
New Products
S-O 24, J-F 22, M-A 16
Professional News
S-O 7, J-F 5, M-A 5
R&D
The Learning Domains—Relationships and Other Implications, Ellen Hooker and H. C. Kazanas, S-O 14
Solving Problems Through Rational Decision Making, Marie F. Kraska and H. C. Kazanas, J-F 19
Improving Work Productivity Through Vocational Education, James Leach and H. C. Kazanas, M-A 20
Report From Washington (by Walter J. Brooking)
The New Department of Education, S-O 23
The Need for Mechanical Technicians, J-F 16
The Growing Need for Instrumentation Technicians, M-A 19
